

## ROGER EDWARD YATES

### Statement & CV

My work is a journey to give meaning to my earthly life.

I need to justify my existence which in essence is totally foreign to me in relationship to this earth. Therefore if colour, design, the straight line - which represent truth...well. this is how I work and have always done.

I could say that I am continually searching for a relationship with the divine – whatever that could be – for sure it does not exist here on earth!

Born in England.

Living and working in Sweden.

Dancer, Sculptor, Painter, Teacher, Potter
